

BIOGRAPHY:

Professor Dr. Zili ZHANG

(Department of Structural Engineering, Tongji University, Shanghai, China)

Dr. Zili Zhang is a Professor at the Department of Structural Engineering, Tongji University, Shanghai, China. Zili's research interests include structural dynamics and control, renewable energy structures, stochastic dynamics and uncertainty quantification of loads and structures, fluid-structure interaction. He has co-authored more than 70 papers in peer-reviewed international journals and conference proceedings, along with a book on stochastic dynamics. He spent more than 6 years as a faculty member at Aarhus University, Denmark, and was the principal investigator of several research projects. He is an Associate Editor of the ASME Journal of Offshore Mechanics and Arctic Engineering, and serves as an editorial board member of Structural Control and Health Monitoring.
